

Villa Bornancini

A part of the villa is a Bed and Breakfast, the nineteenth-century building originally built in the 17th-century is surrounded by a park about one hectare large, where you can admire several centuries-old trees. The Villa offers the opportunity to stay, immersed in history, in comfortable rooms with original furnishings, all with a view of the garden or park.

Dino's Greenhouse, inserted in the centuries-old park, expertly combines the brightness of the glass and the green of the vegetation, making it an enchanting location for events for up to 120 people. The park, which can be reached directly from the structure's internal car park, is available for your events.

Villa Bornancini offers its spaces to host the event you desire in an elegant and charming setting.

Villa Bornancini is located in the center of Cinto Caomaggiore about 1 km from the A28 Sesto al Reghena Cinto Caomaggiore motorway and 6 km from the A4 exit of Portogruaro.
